

Project Design Phase Problem – Solution Fit Template

Date	7th July 2026
Team ID	
Project Name	Heritage Treasures
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Template:

1. CUSTOMER SEGMENT(S) Who is your customer? (i.e. wedding parties of 5-10 p.p. - 100k)	6. CUSTOMER CONSTRAINTS What constraints prevent your customers from taking action to solve their challenge? (i.e. wedding parties, budget, no cash, network connections, available devices)	5. AVAILABLE SOLUTIONS Which solutions are available to the customer when they face the problem? (i.e. need to get the job done? What have they tried in the past? What price is okay for these solutions? (i.e. print and paper is an alternative to digital marketing)
2. JOBS-TO-BE-DONE / PROBLEMS Which jobs-to-be-done (or problems) do you address for your customer? There could be more than one, explore different sides.	9. PROBLEM ROOT CAUSE What is the real reason that this problem exists? What is the basic story behind the need to do this job? (i.e. customer how to do it because of the change in regulations)	7. BEHAVIOUR What does your customer do to address the problem and get the job done? (i.e. identify related, find the right order point, transfer, calculate usage and benefit, indirectly associated customers spend time on volunteering work & a. background)
3. TRIGGERS When triggers customers to act? (i.e. seeing their neighbours installing solar panels, reading about a more efficient solution in the news)	10. YOUR SOLUTION If you are working on an existing business, write down your current solution (i.e. fit to the canvas, and check how much it fits reality). If you are working on a new business proposition, then keep it blank until you fit to the canvas and come up with a solution that fits within customer boundaries, within a problem-and-solution customer definition.	8. CHANNELS of BEHAVIOUR 8.1 ONLINE What kind of solution do customers take online? (what online channels from 8.1)
4. EMOTIONS: BEFORE / AFTER How do customers feel when they face a problem or a job and afterwards? (i.e. feel insecure + confused, to control + see it to your communication strategy & design)		8.2 OFFLINE What kind of solution do customers take offline? (what offline channels from 8.1 and how from the customer development)
